REFLECTION FROM THE GROUP CHAIRMAN

We are a 28 year old growing company with family inception from 1952 and providing 360° support mechanism to Farmers across the Globe. We have always remained "A Farmer Centric" Organisation and provide the latest and best quality products and services to the farmers at competitive price in order to improve their livelihood. Ours is a growing organization with more than 1500 persons attached directly or indirectly to serve the Company and over 7000 Business Partners channelizing for the growth of Indogulf.

We want to further strengthen our bond with the farmers so that their level of prosperity rises, which is a part of our mechanism.

We aim for a collaboration to synergise our scientific base and accelerate our multi-dimensional growth. I would personally like to thank all our valued Channel Partners for their continuous support and dedication as we couldn't have been where we are now without such a tremendous level of endorsement from all of you. I also would like to thank the team at **INDOGULF** for all the hard work and incredible levels of enthusiasm ensuring that our customers get the best from us.

Wish you a very happy and joyful new year 2022!!

OM PRAKASH AGGARWAL
GROUP CHAIRMAN

MESSAGE FROM THE DESK OF MANAGING DIRECTOR

Year 2021 has not been an easy year as we all faced and still facing the pandemic Covid-19 at an unprecedented level. However, with the joint efforts of all team members of **THE INDOGULF GROUP**, we managed to sail it safely and calmly during this extraordinary period.

Various notable advancements in the year 2021 have supported our stability and performance during the time of the global pandemic. Our Brand Ambassador, Shri Surender Pal could be seen on social media, showcasing our Brands. The year witnessed inception of our three new Companies namely "Abhiprakash Globus Pvt Ltd", "Abhisatya Pvt Ltd" and "Abhiprakash Infra Pvt Ltd". In this year, we have successfully registered few New Formulations in Latin America. We were granted with 340 9(4) Me too Certificate, 42 TIM Registrations and 6 Technical Import Registrations. "**Indogulf**" Trade Mark is registered under IPR Act in Ukraine, Georgia, Russia and Kazakhstan now. Our Bio-efficacy trials are conducted in many Countries across the Globe. Our sister concern "Indo Organics Pvt Ltd" has also started Export Business and received registration in some countries.

The big idea behind our success is "*Our Integrity in form of whatever we do, wherever we do and for whoever we do*". Creating problems to opportunities, creating value from intelligence by best use of technology and integrating chemistry-physics-biology to provide successful solutions for agri needs has been our base idea.

We will expand ICL foot print in the coming year in various new Countries. We are aiming at doubling our market share in all major markets. Our vision is to be a four digit Organisation by the financial year 2023-24.

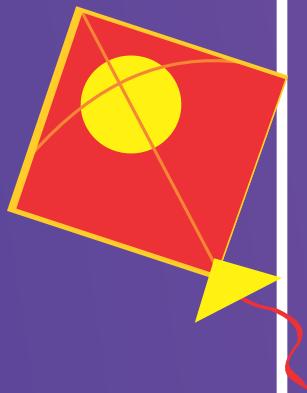

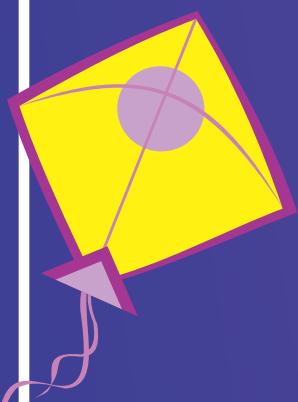

Let us embrace the spirit of our tagline "**Hamara maan, Khushhaal Kisan**", adopt the new norms and technologies, and march for another successful year 2022.

Wishing you and your family a safe, healthy, and happy new year!!

INDOGULF CROPSCIENCES LTD.

Indogulf Cropsciences Ltd. is regularly working on the upgradation of its manufacturing facilities. The company is coming up with its new project of Ila-Danavasi-Senap which will be a state-of-the-art unit with latest technologies with the annual production capacity of approx. 2,00,000 MT/KA which will immensely support in the expanding of its business. This unit will be the 7th unit of Indogulf Cropsciences Ltd. besides earlier 3 Formulators & 1 Technical Plant.

In its continued endeavor to provide new chemistry products, Incepta has launched 5 new products in Kharif season which are Meta Smart (Fluazifop-P Butyl 11.1% + Homosulfate 11.1% EC); Parker (Pythiobac Sodium 8% + Quazofop Ethyl 4% ME); Paarth 3035 (Fluazifamol 39.35% SC); Port Plus (Hyponoxin 15% + Dithromex 25% EC); Alokash (Enmedin 1.0% EC) and now for Rabi season it's planning to support chemical partner & farmers with 2 new products Peak (Hinoxone 5.1% EC); & Jet Ho Plus (Cincholop Propogyl 9% + Metribuzin 20% WP).

The company's products are well known for its quality and efficacy. Farmers ask for products having like qualities to be success.

Anand Singh Negi
VP - Marketing

This year Induagro has opened operations in Tamil Nadu state taking its total states to 20. The product range includes Crop Protection, Plant Supplement, Kitchen Garden, Lawn & Public Health Division. The vision is to provide sustainable & cost effective quality solutions to our farmer community and its customers, said Mr. Anand Singh Negi, VP – Marketing.

As we know that during this epidemic many people have faced very bad situation. Some have lost their loved ones, some have suffered financial losses. One of them is our Mr. Rajkumar Hisar who faced this calamity and had to suffer a lot. In this bad time, our company Indogulf CropSciences has taken the initiative to help them and has given them one lakh rupees as financial help and one lakh rupees as loan. For which we express our heartfelt gratitude to the company. Special thanks to MD Sir, Negi ji and HR team.

FUTURE OF INDIAN AGRICULTURE

The GDP of India's agricultural sector amounts to an impressive US\$ 262 billion. The industry remains the single largest contributor to the Indian economy, although its share of GDP fell from more than 30 % in 1991 to almost 14.5 % in 2011. In order to promote the participation of the private sector, the Indian government allowed 100% foreign direct investment (FDI) in several segments of the agricultural industry. These include fertilizers, agricultural machinery, horticulture, seed development, livestock farming, fish farming, and F&V segment. The outpour of these private sector investments will benefit Indian farmers considerably, as most of them engage in small-scale enterprises and struggle to achieve profitability. These investments can be used to promote agricultural research and development and protect the environment, which could contribute to the overall increase in agricultural productivity.

Apart from FDI being a major game changer, the green revolution in the 70's actually played a pivotal role in making the nation self-sufficient. This was tagged with the usage of chemical-based agri inputs which made the farmers pay a hefty price over the coming year. The haphazard use of chemical made the soil infertile, led to the loss of productivity, environmental degradation, and lower yields eventually. Increase in use of chemical fertilizers has not only caused an increase in yields but also led to the disruption of the ecological balance which the nation is trying to reverse by going chemical free. Several states have adopted the organic route and many are in pipeline.

Considering the present agricultural scenario and the growth plan to be envisioned, we need to work on the below pointers to understand and develop the channel for the rise of agriculture in India:

- 1 Supply stress due to resource scarcity
- 2 Scope to improve yield
- 3 Opportunity to reduce losses in the food chain
- 4 Technological disruption directly to farmers
- 5 Agricultural credit
- 6 Soil nutrient management
- 7 Research / technology-based crops

Also, the government initiatives and investments, along with various schemes for the agri community have proved to be a turning point in the way agriculture will be carried out.

Not just the organic way or government initiatives, the Public-Private partnership would garner better results in the agriculture space for supporting future innovation and capacity building. India is expected to achieve the ambitious objective of doubling farmer's agricultural revenue by 2022. In the coming years, India is expected to be self-sufficient in pulses due to the concerted efforts of scientists to obtain early maturation varieties of pulses and the increase in the minimum support price. The Government of India aims to increase a farmer's average household income to Rs. 219,724/- by 2022-23 from Rs. 96,703/- in 2015-16 at present prices.

49TH NATIONAL SAFETY WEEK CELEBRATION IN TECHNICAL PLANT

NATIONAL SAFETY COUNCIL

NATIONAL FLAG HOSTING CEREMONY AT NATHUPUR FACTORY.

PANDEMIC & LIFESTYLE CHANGE

Amidst the various strains of Covid-19 intruding our lives there is surge of lifestyle change in various age group and so have affected office goes too like each of us. All these unwanted situations really compelled us to adapt and embrace many changes in our live no matter we like it or not. Some of us happily embrace such changes but few us face hard-time getting adapted to it. Today lifestyle change has become a necessity to grow in personal and professional life both for us an individual and for our healthy corporate life.

Lets see few of the lifestyle changes which is the result of our experience, research and social experiments:

CREATE A HEALTHY ROUTINE

It is important to create and maintain a healthy routine which allows for ample time for sleep, hobbies, socialising, other daily duties, including work and household chores. A well planned routine in life help build consistency and stability in life and impact the immediate environment, making it more effective and positive. In the face of upcoming third wave or another complete lockdown, a well-planned and regular routine can be a strong pillar of support, to build both productivity, purpose, and a sense of accomplishment in the daily life.

This is one of the key aspects that one needs to focus on. With 2 waves of Covid-19 and 2 lockdowns, it is important that one is clear about one's financial liabilities or savings and open enough to rethink and re-imagine what you do to earn a living. Financial uncertainty due to the pandemic, has pushed several families to look for alternative/additional sources of income, to diversify their earnings and not be completely dependent on just one source. Covid-19 has also made us learn on how to spend of earnings wisely and save a significant portion of our earnings for loved ones.

NURTURE CLOSE RELATIONSHIPS

"Man is a social animal and cannot survive in isolation" we all have heard this famous quote in our sociology class when we were in school but in contrast most of us have forgotten this important saying – why??? because we all were busy and so intimate with our Smartphone. But one important thing the pandemic has taught us is the value of friends and family. The lockdown and social isolation helped highlight the value of social relationships, making them more real and supportive. Nurturing these relationships, either through in-person meetings or through video calling etc., is important to build a social and emotional support system. Bonds like these help one in building emotional resilience and hope, in the face of gloom and uncertainty.

RETHINK AND RE-IMAGINE OUR WORK

FOCUS ON MENTAL HEALTH

Another especially important aspect is to keep a check on one's own mental health. In these difficult times, it is easy to fall prey to negative thought processes and surround oneself with constant thoughts of gloom or hopelessness. One needs to be able to identify these thought processes in time and embark on activities that may help ease these disturbances whether cultivating a new hobby or engaging in social conversations, involvement in self-help groups, volunteering your time, doing regular exercises, following a healthy diet and regular sleep routine.

Last, but not the least, the best ways to tide over this pandemic, both as an individual and as a society, is to follow all the guidelines and rules set by our governments and healthcare organizations, to ensure minimum spread of the virus no matter how frustrated or fatigued, we are. The guidelines include but are not limited to doing Vaccination, following social distancing norms, wearing masks, and taking all personal hygiene precautions.

FOLLOW ALL GUIDELINES

While it may feel difficult, frustrating, and helpless even to hear about and prepare for a possible third wave of the pandemic, we all must remember "it is what it is" and we just cannot hope to turn back the clock and go back to how it was before the pandemic. The changes brought about by this new normal are here to stay whether one likes it or not and we have to find innovative ways to adapt and reinvent our personal and professional lives. The more one focuses on self-improvement, self-growth, and self-preservation against the virus, the easier and faster it would be for all of us, as a race, to tide over this global crisis.

The Importance of Feedback

What is feedback?

Feedback is structured information that one person offers to another, about the impact of their actions or behaviour. Regular, good quality feedback is one of the most important ingredients in building constructive relationships and in getting jobs done.

Why give feedback?

Feedback has a helpful purpose - the giver aims to help the other person be more effective next time. It should be designed to give benefit to the receiver, not release to the giver.

Feedback can be used to:

1. Influence someone to do something differently or to change their approach.

2. Recognise and reward effort - people are more likely to perform well if you let them know you've noticed.

3. Improve the quality of the work you do - through clear and timely performance feedback, more attention to performance quality and more clarity about the what, how, why and when of people's jobs and tasks.

4. Build and maintain relationships - open and honest dialogue is an essential part of a constructive working relationship. Giving regular feedback is one way to build an open climate, where trust and support is a mutual expectation.

5. Manage performance - people need clear and unambiguous information to help them meet - or exceed - your expectations about doing the job.

6. Influence motivation - people often respond well when you take the time to give them clear, accurate information, along with a stated intention to help them do better.

7. Clarify expectations and prevent guesswork about performance. People are more likely to meet your expectations if you give accurate information about what you like and value, and what you don't like and don't want.

Feedback is not always easy to give or receive. The giver and receiver both need to be open to receiving feedback and open to the possibility that the feedback being given may be based on incorrect assumptions.

Feedback is a two-way process!

It is just as important that you as the leader receive feedback from your staff, as it is that you give feedback to them. You also need to know where your behaviour could change so be prepared to ask for constructive feedback from staff and do not be defensive when you receive it. Listen attentively to what is being said and be prepared to change if necessary. In other words, do not expect your staff to do something you are not prepared to do yourself!

Your leadership should best be measured not by your leadership but by the leadership of the people you lead.

What is Feedback? (A tool)

"Self Disclosure" and "Feedback": Johari Window
designed by JO and HARRY.

What You See

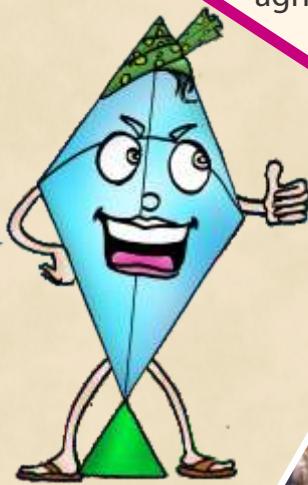

What I See	What I See and You See – "Public"	What You See But I Do Not – "Blind Spot" Feedback
	What I See but You do not – "Private" Self Disclosure	What You do not see and what I do not See – "Unconscious"

FARMER'S FIELD VISIT

Product demonstration is one of the tool of development activities has been done by ICL were more focused and they are directed towards farmers prosperity. Our development activities were highly targeted in terms of crop, insect, diseases, weeds with quality product and advance technology. Keeping in mind main purpose of this tool is show the results of new innovative products from lab to land and get benefitted the farmers through manage the new emerging issue in field to avoid the resistance problems in old molecules as well as not safer for natural enemies.

Farmers meeting is an important tool for awareness of any agro-industry for his product knowledge in mass. ICL is using this tool for his products demonstrations and awareness in public. Through this method lot of current problems of farmers solved by highly qualified doctors in single platform. It is an important method in sustainable agriculture and Integrated Crop management practices. ICL is using this tool in throughout the country to transfer the latest Novel innovation for sustainable agriculture and farmers' Welfare.

FARMERS MEETING

ICL Consumer Feedback

नाम - विनोद सुमन
गाँव - अर्जुनपुरा (कोटा)

मेरा नाम विनोद सुमन में अर्जुनपुरा निवासी हूँ। मेरे खेत में धान की फसल में इण्डोगल्फ कंपनी के प्रतिनिधि ने रुटो फैक्स अल्ट्रा का डेमो लगाया जिसके मुझे बहुत अच्छे परिणाम मिले मेरे धान के पौधों में फुटाव भी अधिक था जिससे बालियों में दानों की संख्या ज्यादा व दानों में चमक अच्छी थी जिससे मेरा उत्पादन अच्छा निकला में सभी किसान भाइयों को अपने खेत में रुटो फैक्स अल्ट्रा प्रयोग करने की सलाह देता हूँ।

नाम - रघुवीर शर्मा
गाँव - अर्जुनपुरा (कोटा)

मेरा नाम रघुवीर शर्मा गाँव हरिपुरा निवासी हूँ। मैंने अपने खेत में धान की फसल की रोपाई की थी। जिससे कंपनी के प्रतिनिधि ने कंपनी के उत्पाद एम्पायर का डेमो (स्प्रे) लगाया जिसके मुझे बहुत अच्छे परिणाम मिले मेरी धान की फसल हरी बनी रही धान के पौधों में रोग प्रतिरोधक क्षमता बनी रही बालियों की लम्बाई अधिक और बालियों में दानों की संख्या ज्यादा निकली अतः मैं एम्पायर से संतुष्ट हूँ।

We are working toward farmers' prosperity by providing world class technology to them. It's our pleasure to get the positive feedback from our farmers who used ICL products. Here are some farmer testimonial to describe and celebrate our success.

नाम - वैतन राऊत
गाँव - पिम्पल गाँव (बुलडाणा)

नाम - उमेश वागे
गाँव - असलगाँव (बुलडाणा)

मेरे पास मेरी खुद की पीपलगाँव शिवार में 5 एकड़ खेती है उस खेती में मैंने इस साल 3 एकड़ खेती में तुवर की फसल की बुआई की है। मेरी तुवर की फसल पर इन्होंने मुझे इण्डोगल्फ कंपनी के प्रतिनिधि सैयद रियासुद्दीन इन्होंने मुझे इल्ली नाशक के साथ इण्डोगल्फ कंपनी की अंकुर गोल्ड और एम्पायर दवाई की सिफारिश की थी साथ में मेरे खेत में व्हीजीट डेकर मुझे तुवर की फसल पर अंकुर गोल्ड और एम्पायर का डेमो दिया। दिन बाद इस दवाई के बहुत अच्छे परिणाम दिखे इसलिए मैंने सभी फसल पर अंकुर गोल्ड और एम्पायर इस्तेमाल करने का फैसला लिया और सभी किसान भाइयों को भी इसकी सलाह दूंगा।

मैंने इस साल मेरे खेत में 3 एकड़ क्षेत्र में तुवर की फसल की बुआई की है। उस फसल में मैंने इस साल इण्डोगल्फ कंपनी के प्रतिनिधि सैयद इनकी सिफारिश से तुवर फसल की 6 लाईन पर डेमो लिया। डेमो लेने के बाद 10 दिन बाद मुझे काफी अच्छे परिणाम दिखाई दिए। फसल की तेजी से वृद्धि होने लगी शाखाओं में काफी संख्या बढ़ने लगी इसलिए बच्ची हुई सभी फसल पर अंकुर गोल्ड और एम्पायर का छिड़काव लेने का फैसला लिया और सभी किसान भाइयों को भी इसकी सलाह दूंगा।

नाम - शैख सादिक
गाँव - रसूलपुर (बुलडाणा)

इस साल मैंने मेरी तुवर की फसल में इण्डोगल्फ कंपनी की दवाई अंकुर गोल्ड और गजब अल्ट्रा दवाई का डेमो लिया। यह डेमो तुवर की फसल की 6 लाईन पर हुआ। एक हपते बाद मुझे इस दवाई के बहुत सुन्दर परिणाम दिखाई दिए जैसे तुवर की फसल में बालियों में वृद्धि और कवालिटी में काफी सुधर आया इसलिए पुरी फसल पर मैंने अंकुर गोल्ड और गजब अल्ट्रा छिड़काव का फैसला लिया।

नाम - शशि पटेल
गाँव - जमड़ी (महासगुंद)

मेरा नाम शशि पटेल है मैं ग्राम जमड़ी जिला महासगुंद का निवासी हूँ। मैं अपने 100 एकड़ खेत में धान लगाया हूँ। जब मेरी धान की फसल 110 से 115 दिन का था तब मैंने देखा की मेरी धान में रस चूसने वाले फुदका लगा दुआ है जो मेरी धान की फसल को खराब कर सकता है पहले मैं दूसरी कंपनी का रस चूसक दवा उपयोग किया लेकिन काम नहीं किया फिर कंपनी के कर्मचारी द्वारा मेरे खेत में सवेरा 30 मिली लीटर पर्याप्त ५० मिली लीटर (१ पंप) का सैंपल डाला गया मुझे इसका परिणाम 24 घंटे में दिखने लग गए। मेरे खेत में रस चूसक फुदका नहीं दिखने लगा फिर मैंने अपनी सभी फसल में इनका उपयोग किया और किसानों को भी बताया। आने वाले समय में हर साल रस चूसक के लिए मैं अब सवेरा का ही उपयोग करूँगा।

नाम - गोवर्धन साहू
गाँव - शुकलपुरा (नवगढ)

मेरा नाम गोवर्धन साहू है मैं शुकलपुरा नवगढ का निवासी मेरे पास 3 एकड़ धान की खेती है। मेरे 3 एकड़ धान में सीधा ब्लाइट की बीमारी का अटैक आया था साथ में ताना छेदक भी था इण्डोगल्फ कंपनी के द्वारा मेरे खेत में स्पाइन ३०डर और रेफरी ३०डर का सैंपल डाला। 4 दिन बाद सर के साथ सैंपल धान देखने गये तब धान में गलम कम हो गई और तना छेदक भी खत्म हो गया धान में इतना अच्छा फायदा पंहुचा है। मैंने बाकी के खेत में भी रेफरी स्पाइन का स्प्रे किया साड़ी बीमारी और तना छेदक खत्म हो गया। मैं अगले वर्ष भी रेफरी और स्पाइन का छिड़काव करूँगा और सभी किसान भाइयों की सलाह दूंगा।

मेरे पास मेरी खुद के गाँव में 6 एकड़ खेती है इस खेती में मैंने प्याज की फसल के लिए नर्सरी लगाई है। इस नर्सरी पर मैंने अंकुर गोल्ड और गजब अल्ट्रा दवाई का छिड़काव किया। छिड़काव के बाद प्याज की फसल में सफेद मुलियों की तेजी से वृद्धि होने लगी अच्छे परिणाम दिखे लगे। इस कारण में प्याज के पूरी फसल पर इसका छिड़काव लूंगा।

मैंने इस साल मेरे खेत में तुवर पीक की बुआई की है तुवर पर मैंने अंकुर गोल्ड और गजब अल्ट्रा नामक दवाई का इण्डोगल्फ कंपनी द्वारा डेमो लिया कुछ दिन बाद मुझे बहुत अचे परिणाम दिखाई दिए, फलियों की संख्या में वृद्धि होने लगी और तुवर के दाने भी अच्छी तरह से भरणे में मदत हुई अतः मुझे अंकुर गोल्ड और एम्पायर के परिणाम अचे दिखाई दिए सभी किसान भाइयों को मैं अंकुर गोल्ड और गजब अल्ट्रा के इस्तेमाल की सलाह दूंगा ।

इस साल मायने मेरी खेती में 5 एकड़ क्षेत्र में कपास की फसल की बुआई की है जब फूल की अवस्था में मुझे इण्डोगल्फ कंपनी का प्रतिनिधि सथेद हहाने मुझे अंकुर गोल्ड और एम्पायर दवाई का डेमो दिया यह डेमो कपास के 6 लाइन पर छिड़काव किया कुछ दिन पश्चात यह दवाई के परिणाम बहुत अच्छे दिखाई दिए कपास की क्वालिटी में सुधार आया और फूल पत्तियों की संख्या में काफी वृद्धि आयी डेमो दी हुई फसल और डेमो न दी हुई फसल में काफी फर्क दिखने लगा इसलिए सभी फसल पर अंकुरगोल्ड और एम्पायर के छिड़काव का मैंने फैसला किया ।

मैंने मेरे खेत में इस साल एक एकड़ क्षेत्र में मिर्ची की फसल की बुआई की है शुरुवाती अवस्थामें मैंने मिर्ची की फसल पर इण्डोगल्फ कंपनी का गजब अल्ट्रा और अंकुर गोल्ड का डेमो लिया कुछ दिन बाद मुझे अंकुर गोल्ड और गजब अल्ट्रा के बहुत अच्छे परिणाम दिखाई दिए जैसे फसल में ग्रीनरी क्वालिटी और ग्रोथ में भी वृद्धि दिखाई दी इसलिए मैंने सभी फसल पर अंकुर गोल्ड और गजब अल्ट्रा का छिड़काव करने का फैसला किया ।

मेरे खेत में धान की फसल में इण्डोगल्फ कंपनी के उत्पाद फैंग का डेमो कंपनी के प्रतिनिधि द्वारा लगाया गया जिसके मुझे अच्छे परिणाम मिले मेरे धान की फसल स्वरूप रही धान के पौधों का रंग हरा रहा बालियों में दोनों की चमक अच्छी रही अतः मैं फैंग से पूरी तरह संतुष्ट हूँ और किसान भाइयों को अपने खेत में फैंग डालने की सलाह देता हूँ ।

The Adventure of Boy and The Bird

There was a boy named Alex, who lived in a forest. He was an adventurous boy. He had survival skills and was living in the forest very efficiently. One day he was roaming in the forest in search of food when a bird flew and sat on Alex's shoulder. He thought that the bird was friendly and it really was. They both became friends and he named the bird "Tickoo". As Alex was adventurous, he thought that they should go on an adventure and explore the world. The world was not advanced at that time people did not make cities so they lived a primitive life. The forest was quite at that time. Alex and Tickoo were climbing the mountain. Being a martial flight bird, Tickoo helped Alex to climb the mountain. While climbing Alex saw an eagle nest. He was curious to see what is there in the nest. So, they went there and saw many eagle eggs. The eagle was coming to feed the eggs and saw Alex. It thought that he was trying to steal its eggs. So, it attacked on them. But Tickoo was mysteriously magical. It changes into a cat when in fear and changes into a dragon when angry. Tickoo was angered on eagle because it attacked on its master. Alex was surprised. Tickoo said to Alex to sit on its back. They battled for a long time. While fighting, one egg fell down but Alex and Tickoo saved it. The eagle was very much thankful and said "If ever you need me just call me out by saying "help Nasty". Alex and Tickoo continues their journey and found a cave on top of the mountain. There were precious gems, ores and stones. They collected them carefully and made tools and weapons.
